Hans—additional OGC comments attached. Can OPPT review and provide any additional OCSPP comments as appropriate? Per Sven, this should be sent this week. Review by 4pm tomorrow would be appreciated.

Thanks,
Kaitlin

PFAS Section 8 team – thanks for the TA comments. I checked with the requester and this was written as freestanding language. The drafters are open to alternative views and language to make it work better with TSCA. They would like the TA as soon as possible and definitely by the end of the week. I understand that it will need to be cleared by OCSPP. Please let me know if any questions. Thanks,
Sven

Sending a few additional comments from Steve.

Sven – do you happen to know if this is intended to be an amendment to TSCA (possibly under section 8), or freestanding? If the latter, we may want to give more consideration to the language in the bill to better interface with TSCA.
